Carlos – You can reach me on my cell phone at 228-224-2983. Our contractor is USA Environment and our contact there is Ed Fendley. His cell phone number is (281) 686-9199 and his v-card is attached.

Hopefully, this covers it. I'm taking off with my kids for a while, but will be back at my desk later this afternoon.

Thanks and Happy Holidays,
David

David,

You may already have this in place that was used during the TCRA work. Our senior managers want a notification plan (phone numbers) in case something happens during the holidays and during the repair next week.

You (PRPs) would call Gary Miller (214-542-9617) and/or me (Carlos Sanchez) at 817-395-3804, and then we would notify our senior managers.

If a spill occurs, you would also notify the EPA Emergency number at 1-800-424-8801.

We would need numbers from your local contractor and you for EPA to call also.

Sorry for the short notice, but we need this information by noon today since we are closing the offices at that time.

Appreciate all your help. Thanks CAS

Thanks David,
If a few are available today, that would help. If not, later will be ok. CAS

Yes – It will likely be Friday before I can get them to you if that is okay. I'm still trying to track them down myself.

Regards,
David

David,
Will photos taken during the cap inspection on December 23, 2015, be available to EPA?
Thanks for all your help and quick response. CAS
